

SHRUBS

AESCULUS

A. parviflora

Bottlebrush Buckeye

(10-12' x 8-10') upright, spreading; white flower panicles late June to early July; lobed dark green foliage, elegant in appearance; fall color yellow-green; use in shade or semi-shade; spectacular when older

AMELANCHIER

A. alnifolia

Regent Serviceberry

(4-6' x 4-8') rounded habit; white flowers in spring; green summer foliage changing from yellow to orange in fall; black fruit is edible and tasty

ARONIA

A. arbutifolia

Red Chokeberry

(7-9' x 5-8') upright, rounded; small white flowers in spring giving way to tiny bright red fruit; green leaves change to red in fall

A. melanocarpa

Autumn Magic Chokeberry

(4-6') width is similar to height; rounded form; small white flowers in spring, green leaves with a red fall color; black fruit through early winter

A. melanocarpa 'Morton'

Iroquois Beauty Chokeberry

(3-4' x 4-5') upright, compact habit; green leaves & white spring flowers, black berries in summer & wine-red fall color; berries can be eaten or used in cooking

BERBERIS

B. thunbergii 'Bogozami'

Bonanza Gold Barberry

(18" x 36") rounded, spreading; bright gold foliage with bright red fruit; stays in a compact form; very hardy

B. thunbergii 'Bailtwo'

Burgundy Carousel Barberry

(3' x 4-5') spreading form; burgundy-purple, slightly drooping foliage with thorns; tiny red berries are well liked by birds; sunny, moist well-drained soil

B. thunbergii 'Concorde'

Concorde Barberry

(2' x 3') rounded; dark purple, velvety foliage spring through fall; new growth is red; small amount of red fruit; good plant for dry conditions

B. thunbergii 'Kobold'

Kobold Barberry

(18" x 2-3') mounded, compact habit; new foliage bright green maturing to a darker green; fall color ranges from yellow-green to orange; full sun

B. thunbergii var. *atro*.

Crimson Pygmy Barberry

(18-24" x 3') low mounded shape; deep red leaves with a orange-red fall color; spiny stems; full sun

B. thunbergii var. *atro*.

Rosy Glow Barberry

(3' x 2-3') compact, rounded; new foliage rose-pink, maturing to reddish purple with mottled effect; spiny stems; full sun

BUDDLEIA

B. davidii

Butterfly Bush

(5-8') most varieties are upright, spreading; fast growing; long flower panicles July to Sept.; avail in various colors; attractive to butterflies

CALYCANTHUS

C. floridus

Sweetshrub

(4-6' x 6-8') upright, spreading habit; foliage dark green changing to yellow in fall, red-brown flowers have spicy scent; moist, loamy soil & sun to full shade; deer resistant

CARYOPTERIS

C. x chandonensis

Blue Beard

(2-3' x 2-3') mounded, compact form; silvery-green foliage all season with blue flowers late July until frost; blooms on new growth; cut back in spring; deer resistant

Blue Mist-light blue flowers

CHAENOMELES

C. speciosa

Flowering Quince

(3-4') height is equal to width; blossoms abundant and showy in spring, flowers begin at base of plant and open upwards to branch tips; sun or part shade

Jet Trails-white flowers

Texas Scarlet-red flowers

CLETHRA

C. alnifolia

Hummingbird Clethra

(3-5' x 3-4') compact, mounded plant, bottle brush-like fragrant white flowers; deep green leaves changing to pale yellow in fall; prefers partial shade; attracts butterflies

C. alnifolia

Ruby Spice Clethra

(4-6' x 3-4') upright habit; non-fading, fragrant pink flowers; green summer foliage with a yellow fall color; partial shade to full sun

CORNUS

C. alba 'Elegantissima'

Variegated Dogwood

(6-8' x 4-6') cream margin on grey-green leaves; white star shaped flowers in spring; bright red stems are very showy in winter

C. racemosa

Grey Dogwood

(6-10' x 6-8') creamy white flowers late May to June; grey-green foliage turning maroon in fall; white berries in fall; good for massing and screening

C. sanguinea 'Cato'
pp 19,892

Arctic Sun Dogwood

(3-4' x 3-4') tiny white flowers in spring; dark green leaves turning golden yellow in fall; noted for its showy yellow winter stems

CORNUS continued

C. sericea

Alleman's Compact Dogwood

(4-5') height is equal to width; white flowers in spring; fall foliage color is reddish-purple; bluish-white fruit; full sun to part shade

C. stolonifera 'Farrow'
pp 18, 523

Arctic Fire Dogwood

(3-4') upright habit; small white flowers in spring with dark green foliage; leaves turn reddish-purple in fall; red

C. stolonifera

Bud's Yellow Dogwood

(6-8' x 5-6') rounded form; yellowish white flowers in late spring; medium green foliage sometimes changing to shades of purple-red in fall; disease resistant; bright yellow winter stems

C. stolonifera

Cardinal Dogwood

(8-10') height is equal to width; stems are coral colored through winter; foliage dark green in summer; reddish-purple in fall

C. stolonifera 'Bailey'

Redtwig Dogwood

(8-10') height is equal to width; green leaves turn reddish-purple in fall; white flowers in spring; showy red stems

COTINUS

C. coggygria

Purple Smokebush

(8-10' x 8-10') large shrub or small tree of upright, spreading habit; a showy purple-pink pubescence along 6-8" panicles gives the effect of a tree surrounded by pinkish smoke June through September; summer color reddish purple; deer resistant

COTONEASTER

C. acutifolia

Peking Cotoneaster

(6-7') as wide as tall; upright habit; excellent hedging plant; small green foliage with an orange-red fall color; easily maintained

C. apiculatus

Cranberry Cotoneaster

(2-3' x 3-6') tiny, glossy green leaves on wide spreading plant; bronze red or purple fall color; pink flowers in early June; abundant bright red fruit through winter

C. divaricatus

Spreading Cotoneaster

(5-6' x 6-8') spreading, mounded habit; glossy green foliage changing to red in fall; pink flowers and bright red berries

C. horizontalis

Rock Cotoneaster

(2-3') wide spreading, low and dense; horizontal branches create layered effect; glossy green foliage, fall color reddish-purple; tiny bright red fruit

C. x hessei

Hessei Cotoneaster

(1-2') growing 4-6' wide in low mounding form; deep pink flower, dark red long-lasting fruit

DEUTZIA

D. gracillis

Slender Deutzia

(2-5' x 2-5') white fragrant flowers in spring; low mounding habit; dark green foliage with no appreciable fall color

EUONYMUS

E. alatus compacta

Compact Burning Bush

(8-9') dense, rounded form; formal in appearance; medium green foliage in summer, fall color brilliant red; corky ridges, or wings, are on stems effective in winter; slow growing; will take part shade, but the fall color is best when in full sun

E. fortunei

Emerald & Gold

Euonymus

(18-24") spreading up to 5'; erect branching; dark green with gold margins changing to pink-red with gold in fall; makes a good groundcover; full sun to part shade

E. fortunei

Emerald Gaiety

Euonymus

(4-5' x 4-5') spreading habit; dense and evergreen, foliage green with white margins; margins are tinged pink in winter

E. fortunei

Sunspot Euonymus

(3') spreading to 6' at maturity, prostrate form; foliage dark green with small yellow center

FORSYTHIA

F. 'Meadowlark'

Meadowlark Forsythia

(8-10' x 6-10') developed for flower bud hardiness in northern climates; upright arching habit; bright yellow flowers; full sun; deer resistant

F. 'New Hampshire Gold'

New Hampshire Gold

Forsythia

(4-5' x 4-5') finely branched, compact and rounded; superior in flower and habit; yellow spring blooms, red-purple fall color

F. viridissima 'Bronxensis'

Dwarf Bronx Forsythia

(24-30") very low growing dwarf form; flat mounded habit; spreading 3-4' wide; yellow blooms in spring; bright green foliage turns bronze in fall; deer resistant

FOTHERGILLA

F. gardenii

Dwarf Fothergilla

(2-3') fragrant, showy white flowers that look like bottle brushes, bluish-green foliage becoming orange to red in fall; does well in partial shade

HAMAMELIS

H. vernalis

Vernal Witchhazel

(10-12') upright, rounded form; yellow to red fragrant early spring blooms (February), dark green foliage, fall color golden yellow; sun or shade

H. virginiana

Common Witchhazel

(15' x 12-15') small tree or large shrub; fragrant, yellow flowers in November; fall color excellent yellow; does best in full sun

HIBISCUS

H. syriacus

Rose-of-Sharon

(8-10' x 6-10') leafs out late in spring; flowers from July to September; fall color nondescript; available in pink, white, purple, red and red/white bi-color; full sun

HYDRANGEA

H. anomala *petiolaris*

Climbing Hydrangea

(to 60')ability to cover rock piles, structures, fences, ect. with dark green foliage and fragrant, showy white flowers late June; sun or shade; slow to establish; outstanding

H. arborescens

Annabelle Hydrangea

(4-5' x 3-5')rounded; summer flowering, very large pure white flower heads; fast growing; needs moist soil, prefers partial shade

H. macrophylla

All Summer Beauty Hydrangea

(3-5')round flower heads of pink or blue depending on soil type; starts flowering mid-summer; blooms on new wood; dark green foliage;

H. macrophylla 'Bailmer'
pp 15,298

Endless Summer Hydrangea

(3-5')as wide as tall; blooms all summer on new and old wood from June til frost; petals are clear pink in alkaline soil, blue in acid soil; part shade or sun; remove spent flowers to encourage rebloom

H. arborescens 'PINKALZ'
ppaf

Endless Summer Bella Anna Hydrangea

(3' x 3')rounded; magenta-pink flowers bloom on new wood consistently summer thru fall; easy to grow; strong stems;

H. macrophylla 'B. Bride'
pp 17,169

Endless Summer Blushing Bride Hydrangea

(3-6')upright, compact habit; pure white flowers mature to a light pink; blooms on new and old wood; green foliage; partial shade & moist soil

H. macrophylla 'PIHM-I'
pp 20,176

Endless Summer Twist-n-Shout Hydrangea

(3-5')upright, rounded; dark green leaves turn burgundy red in fall; lacy, deep pink centers surrounded by pink or blue blossoms depending on soil; blooms on new & old wood

H. macrophylla

Pink Beauty Hydrangea

(3-4')bright pink flowers and red-tinged leaves; blooms in summer; partial shade and moist soil

H. paniculata
pp 12,874

Limelight Hydrangea

(6-8' x 5-7')upright, rounded habit; lime green flowers on new and old wood; flowers turn pink, burgundy and green in fall; sun or part shade

H. paniculata

Pink Diamond Hydrangea

(6-8' x 6-8')upright, rounded habit; large flowers open white and turn bright pink in late summer; best in full sun

H. paniculata 'Bulk'
pp 16,812

Quick Fire Hydrangea

(6-8')rounded form; late May to early June white blooms that turn to rich, deep pink by fall; flowers on new & old wood; green foliage sometimes turning reddish-purple in fall; full sun to part shade

H. paniculata

Tardiva Hydrangea

(6-8' x 8-10')white flowers from mid-summer til frost; blooms turn pink mid August; dark green foliage; full sun or part shade

H. paniculata

Unique Hydrangea

(6-10')upright, rounded; flowers late summer with large white blooms; flowers change to pink as they fade

H. paniculata 'Renha'
pp 20,670

Vanilla Strawberry Hydrangea

(6-7' x 4-5')upright; huge vanilla blooms in mid summer change to pink & mature to strawberry red; held on red stems; First Editions series

H. quercifolia

Oakleaf Hydrangea

(4-6' x 3-5')upright, irregular form; white flowers bloom in mid-summer & turn pink in August; green, red oak shaped foliage changes to reds and purples in fall; sun or shade

HYPERICUM

H. frondosum

Sunburst Hypericum

(2' x 2-3')mounded form; glossy bluish-green foliage with no appreciable fall color; golden yellow flowers June through October; full sun to part shade; drought tolerant; deer resistant

H. kalmianum 'Ames'

Ames St. Johnswort Hypericum

(2-3')rounded; green leaves with bright yellow flowers July thru August; full sun to part shade; drought tolerant; deer resistant

ITEA

I. virginica

Henry's Garnet

Virginia Sweetpire

(3-5' x 4-6')rounded; arching habit; bright green foliage in spring changing to brilliant deep reddish-purple fall color; fragrant white flowers June-July; sun or part shade

I. virginica 'Sprich'
pp 10,988

Little Henry

Virginia Sweetpire

(18-24" x 3')mounded habit; green leaves in spring and summer with a red fall color; fragrant white flowers in spring

LIGUSTRUM

L. vulgare

Cheyenne Privet

(12-15' x 5-6')upright habit; fast growing hedging plant; white flowers; holds dark green foliage late; no appreciable fall color; withstands heavy pruning

L. x vicari

Golden Vicary Privet

(5-6' x 4-5')compact, vase shaped; bright yellow green foliage keeps best color in full sun; small white flowers in spring

LONICERA

L. tatarica

Arnold's Red Honeysuckle

(6-8' x 6-10')upright form; dark red, fragrant flowers in May with red berries following thru July; maintains blue-green foliage through fall; sun or part shade

LONICERA continued

L. xylosteum

Clavey's Dwarf Honeysuckle

(6-8' x 5-6') rounded; yellow fragrant flowers in May; grey-green foliage; red berries in fall; salt tolerant

PHILADELPHUS

P. x virginalis

Double Mockorange

(6-8' x 5-6') upright, arching; white double flowers late spring, very showy and extremely fragrant; medium green foliage; full sun

P. x virginalis

Dwarf Mockorange

(2-3' x 1-2') upright; same wonderful fragrance and white flowers on a compact plant; dark green foliage; full sun

PHYSOCARPUS

P. opulifolius

pp 16,894

Center Glow Ninebark

(8-10') upright, rounded; yellow-green foliage matures to bright red; white flowers; full sun; moist, well drain soil

P. opulifolius

Dart's Gold Ninebark

(4-5') compact, rounded; good yellow foliage, attractive leaf shape; white flowers and red fruit; use in full sun for best color

P. opulifolius 'Monlo'

pp 11,211

Diablo Ninebark

(8-10') upright, rounded; deep reddish-purple foliage on arching branches; white flower clusters in spring; withstands alkaline and dry soils; best in full sun

P. opulifolius 'Seward'

pp 14,821

Summer Wine Ninebark

(4-6' x 4-6') dense, compact habit; whitish-pink flowers mid summer; green foliage changing to reddish-purple; full sun

POTENTILLA

P. fruticosa

Goldfinger Potentilla

(3' x 3-4') compact, mounded form; yellow flowers all summer; dark green foliage through fall; attracts butterflies

P. fruticosa

McKay's White Potentilla

(2-2.5" x 2-3') mounded; single creamy white flowers appear for a long bloom season; med to dark green foliage through fall

PRUNUS

P. x cistena

Purple Leaf Plum

(6-8' x 5-6') upright, oval; small fragrant pink flowers in spring; reddish-purple foliage spring through fall; full sun; also known as Purple Sandcherry

RHUS

R. aromatica

Gro-Low Sumac

(24") wide spreading to 6'; low mounding plant useful for massing or on slopes; glossy green foliage and scarlet to orange fall color; yellow fragrant flowers in spring & red fruit

R. typhina 'Laciniata'

Cutleaf Staghorn Sumac

(8-10' x 12-15') airy, open shrub of great naturalizing capability; foliage reminiscent of palm fronds; bright green leaves in summer turn into a fall showpiece of oranges and reds; red berries in fall; drought resistant and very hardy

R. typhina

Tiger Eyes Sumac

(6' x 6') dissected leaves are chartreuse when they open then turn bright yellow; orange to scarlet in fall; full to part sun and moist, well drained soil; full sun guarantees the best foliage color

RIBES

R. alpinum

Alpine Currant

(3-5' x 5-6') rounded; glossy green foliage; small greenish flowers April-May; sun or shade

R. alpinum

Green Mound Currant

(3-4' x 2-3') compact, rounded form with bright green foliage; useful as low hedge or facer plant; sun or shade

ROSA

Shrub Roses

(2-4') very hardy, long blooming season; low maintenance roses for groundcover, mass plantings, low hedge; roses perform best in full sun and moist, well drained soil

Champlain

beautiful bright red, continuous bloom into October; low growing and hardy

Drift Series

Disease resistant, winter hardy; repeat blooming; cross between groundcover & miniature roses

Apricot Drift 'Meimirrot' ppaf

Dbl apricot flwrs; 1.5' x 2.5'

Icy Drift 'Meipicdevoj' ppaf

Dbl white flwrs; 2' x 1'

Peach Drift 'Meiggili' pp18542

Dbl peach flwrs; 18" x 24"

Pink Drift 'Meijocos' pp18874

pink flwrs; 18" x 36"

Red Drift 'Meigalpio' pp17877

red flwrs; 18" x 30"

Sweet Drift 'Meisweetdom'

Dbl clear pnk flwrs; 18" x 30"

Flower Carpet Appleblossom

blush pink semi-double

Flower Carpet Coral

single coral

Flower Carpet Pink

bright pink double

Flower Carpet Red

dp red turn bright pink as fade

Flower Carpet Scarlet

deep scarlet

Flower Carpet White

white, semi-double

Flower Carpet Yellow

bright yellow

Knockout Series

Everblooming; 4' height & width; single or double petals; disease resistant; green foliage turns red/purple in fall

Double Knockout 'RADtko'

double red fades to bright pink; pp16,202

Double Pink Knockout

'RADtkopink'

double pink; pp18,507

Knockout 'RADrazz'

single red fades to bright pink; pp11,836

Pink Knockout 'RADcon'

single pink; pp15,070

Sunny Knockout 'RADsunny'

single bright yellow fades to a creamy pastel; pp18,562

Knockout Tree Form

A knockout shrub rose on a 3' standard; available in pink, red and double red varieties; a beautiful specimen patio tree

Nearly Wild

Single pink, continuous bloom; delightful landscape addition, full sun, great for massing

Hybrid

This selection includes climbing, Austin English, hybrid teas, grandifloras and floribundas. Use in full sun, minimum of 6 hours per day; evenly moist soils.

SALIX

S. integra 'Hakura Nishiki'

Hakura Nishiki Willow

(4-6'+)width is equal to height; rounded, spreading habit; pink stems and buds open to dappled pink, white and green foliage; leaves turn golden in fall; stems turn coral red in winter

S. purpurea 'Nana'

Dwf Blue Arctic Willow

(3-4' x 3-6')upright, rounded form; blue-green, finely textured foliage; stems turn purplish in winter; tolerates wet soil

SAMBUCUS

S. nigra 'Eva' pp15,575

Black Lace Elderberry

(8-10' x 8-10')rounded habit; pink buds open to pink & white lacy flowers May to June; finely textured, dark purple foliage; full sun

SPIRAEA

S. albiflora

Japanese White Spirea

(2')low mounding plant with masses of white flowers late June to July; dark green foliage; sun or light shade

S. betulifolia 'Tor'

Tor Birchleaf Spirea

(2-3' x 2-3)compact, rounded; white blooms May thru June; birch-like dark green leaves change to oranges, reds and purples in fall; full sun

S. japonica

Little Princess Spirea

(2-3')spread 3-4'; foliage small and dense, pink flowers very showy against dark green foliage; light shade acceptable

S. japonica pp9,363

Magic Carpet Spirea

(18")compact habit, approx. 24" wide; green foliage red-tipped, pink summer flowers; fall color rust-orange

S. japonica

Neon Flash Spirea

(3')improved Anthony Waterer (no albino shoots); vivid red flowers, richly colored new growth; spreading habit, fall color deep wine red

S. japonica

Norman Spirea

(2-3')very fine semi-dwarf; upright mounded; mint green foliage, rosy pink flowers and raspberry red fall color

S. japonica

Shirobana Spirea

(2-3')medium green foliage; flowers bloom pink, rose and white on the same plant; low mounding habit

S. nipponica

Snowmound Spirea

(3')dense, dark bluish-green foliage and masses of tiny pure white flowers in late May; sun to part shade

S. x bumalda

Anthony Waterer Spirea

(3-4')new growth emerging reddish-purple; flowers rose pink bloom June-July; fall color dark reddish-purple

S. x bumalda

Froebel Spirea

(3-4')new leaf tips purple on dark green foliage; flowers bright pink, effective May-June; fall color insignificant

S. x bumalda

Goldflame Spirea

(2-3')new growth orange, red and copper; color repeats in fall; pink flowers in summer; best in full sun

S. x bumalda

Goldmound Spirea

(2')spread 3-4'; dense and golden yellow all season; best in full sun; pink flowers June and July; fall color insignificant

S. x vanhouttei

VanHoutte Spirea

(5-6')commonly referred to as 'Bridalwreath'; masses of tiny white flowers on dark green foliage; graceful upright arching habit; fall color orange-red

STEPHANANDRA

S. incisa

Dwarf Stephanandra

(1-2' x 3-6')mounded; yellow white flowers in June; dense shrub with very attractive leaf shape and dark green foliage; light shade acceptable

SYRINGA

S. meyeri 'Palibin'

Dwarf Korean Lilac

(5-6' x 5-7')pale violet flowers, blooms at an early age; neat compact form; small round foliage; excellent hedging or group plant

S. patula

Miss Kim Lilac

(6-7' x 5-6')pale lilac blossoms; glossy green foliage turns burgundy in fall; hardy compact form; flowers later than other varieties

S. persica

Persian Lilac

(5-6')abundant pale lilac blossoms late May; more compact than vulgaris varieties

S. vulgaris

Common Purple Lilac

(12-15')much loved purple flowers in abundance mid-May; heavy fragrance; tall variety for hedging, specimen or naturalizing

S. x 'Josee'

Josee Lilac

(4-6' x 4-5')fragrant lavender-pink flowers bloom intermittently until frost; small medium green leaves; full sun and well drained soil

There is a limited number of

Charles Joly, Montaigne & President Lincoln Lilac available. Please call for inventory.

VIBURNUM

V. carlesii

Koreanspice

Viburnum

(8' x 8')upright, rounded; early May flowers pinkish-white and fragrant; good green foliage, deep red color in fall; best in full sun

V. dentatum 'Christom'

Blue Muffin Viburnum

(5-7' x 4-6')compact, rounded; glossy green leaves change to yellow in fall; beautiful white flowers in spring and blue berries in summer; full sun to shade

VIBURNUM^{continued}

V. dentatum 'Synnesvedt'

Chicago Lustre Viburnum

(8-10')width is equal to height; upright, rounded habit; white flowers in June; dense, serrated bright green foliage; fall color red-purple; adaptable to wet areas; edible berry in fall

V. dentatum 'Morton'

Northern Burgundy Viburnum

(10-12')as wide as tall; glossy green foliage turning burgundy in fall; creamy white flowers late June; blue-black berries in fall

V. lantana

Mohican Viburnum

(12' x 12')upright, oval; an abundance of creamy white flowers early May; dense, dark green foliage; orange-red fruit; sun to part shade

V. lentago

Nannyberry Viburnum

(20' x 10'+)very hardy; upright growth habit; green foliage turns purple-red in fall; use in shade or sun; blue-black fruit attracts birds

V. opulus compactum

Compact European Cranberry Viburnum

(5-6' x 5-6')spreading habit; white flowers April into May; scarlet fruit lasting through winter

V. opulus nanum

Dwarf European Cranberry Viburnum

(2-3')extremely dense rounded form, no trimming necessary; good green foliage turning red in fall; rarely flowers; sun or part shade

V. plicatum tomentosum

Mariesi Doublefile Viburnum

(8-10')rounded habit; excellent abundance of white blossoms on horizontal branching; dark green foliage tinted red in fall; sun or shade

V. prunifolium

Blackhaw Viburnum

(12-15' x 8-12')rounded habit; white flowers in May; edible pink to black fruit Sept.—Oct.; excellent red fall color; slow growing

V. trilobum

Wentworth American Cranberry Viburnum

(10-12')white flowers late May; very attractive lobed leaves; deep red fall color; scarlet berries hold into winter; hardy outstanding hedge plant

V. trilobum compactum

Compact American Cranberry Viburnum

(4-6')white spring flowers, scarlet fruit; large lobed foliage turning deep red in fall; dense and rounded compact habit

V. x burkwoodii

Burkwood Viburnum

(8-10')pink buds opening to white fragrant blooms in April; lustrous green foliage becoming wine red in fall; upright, multi-stemmed habit

V. x carlcephalum

Fragrant Viburnum

(6-8')equal spread; pink buds opening to white flowers in spring; very fragrant; foliage reddish-purple in fall

V. x juddii

Juddi Viburnum

(6-8' x 4-6')fragrant light pink flowers in spring; bushy spreading habit; sun or partial shade; reddish-black fruit; commonly used in place of *V. carlessii*

WEIGELA

W. florida

Carnaval Weigela

(4-5' x 3-5')equal width; blooms red, white and pink all at once; azalea-like flower clusters; dark tinted foliage; use in full sun

W. florida 'Dark Horse'

pp 14, 381

Dark Horse Weigela

(2-3' x 2-3')mounding; bronze foliage with lime green veining; magenta pink flowers; birds and butterflies love it

W. florida

Java Red Weigela

(3-4' x 4-5')dark pink blooms against dark reddish-green foliage; flowers in abundance May-June and sporadically throughout summer

W. florida 'Elvera'

pp 12, 217

Midnight Wine Weigela

(2' x 2')deep pink blooms on metallic purple foliage; very compact plant, smallest of weigelas; use in full sun

W. florida

Minuet Weigela

(2-3' x 2-3')rose-pink blooms in abundance; green foliage on compact plant; full sun or part shade

W. florida 'Verwig'

pp 16, 824

My Monet Weigela

(12-18" x 12-15")compact, mounded habit; purplish-pink flowers with green & white variegated foliage; full sun

W. florida

Red Prince Weigela

(5-6')width equal to height; bright red flowers in profusion May through summer; medium green foliage; upright rounded habit

W. florida

Variegated Weigela

(4-6' x 6-8')green and cream variegated foliage on a compact rounded plant; pink flowers May-June continuing sporadically throughout summer

W. florida

White Knight Weigela

(5-6')equal spread; extremely long blooming; light pink buds open to pure white flowers that continue til frost; medium green foliage; full sun

W. florida 'Alexandra'

pp 10, 772

Wine & Roses Weigela

(4-5' x 3-5')dark burgundy-purple foliage and rose-pink flowers; more intense color than 'Java Red'; use in full sun for best color

WISTERIA

W. sinensis

Aunt Dee Wisteria

(to 30')twining vine needs ample support; unbelievable flower; 10-12' long racemes in spring; it takes time to produce those famous blooms, but it's worth the wait

other varieties subject to availability
